Sponsored by Baylor College of Medicine

**Kristi L. Watterberg, MD**

Professor of Pediatrics  
Chief, Division of Neonatology  
Vice-Chair, Department of Pediatrics  
University of New Mexico School of Medicine  
Albuquerque, New Mexico

**Adrenal Insufficiency in Newborns:  
Evidence and Consequence**

Friday, February 26, 2010, 8:30 AM

Texas Children's Hospital (Lower Level Auditorium)  
6621 Fannin Street • Houston, Texas

---

**Objectives:** At the conclusion of the session, the participants should be able to:

- Describe clinical findings of relative adrenal insufficiency
- List at least one reason that preterm newborns might be at high risk for this problem
- Know the treatment for relative adrenal insufficiency
- Describe how adrenal insufficiency affects lung development

**Target Audience, Needs, Educational Methods, Activity Evaluation:** Physicians, residents and fellows need to be regularly updated on advances in the field of general pediatrics and pediatric subspecialties. Educational methods will include lectures and question & answer sessions. Participants will be asked to complete an activity evaluation.

**Accreditation/Credit Designation**

Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Baylor College of Medicine designates this educational activity for a maximum of 1.0 *AMA PRA Category 1 Credit(s)*<sup>™</sup>. Physicians should only claim credit commensurate with the extent of their participation in the activity.

This series is broadcasted at St. Luke's Community Medical Ctr. – The Woodlands, Methodist Willowbrook Hospital, Ripley House Pediatrics, Cullen Pediatric and Adolescent Health Center, Gulfport Pediatrics, West Houston Health Center, Sugar Land Health Center, Cy-Fair Health Center, Clear Lake Health Center, Woodlands Health Center, Ben Taub General Hospital, Vannie E. Cook Jr. Children's Cancer and Hematology Clinic, Texas Children's Cancer Center and St. Luke's Sugar Land Hospital.

Supported in part, through a restricted educational grant from Abbott Nutrition, a division of Abbott Laboratories, Inc.
